**RE: RIDGEWOOD WATER CEDAR HILL PFAS TREATMENT FACILITY
2026 SANITARY SEWER UPGRADES**

“CONSTRUCTION ACTIVITY NOTICE”

Dear Resident,

This notice is to inform you of upcoming sanitary sewer system improvements planned along Cedar Hill Ave, Caldwell Dr, Cottage Rd, Glendale Rd, and in front of your property.

PACT TWO, LLC (PACT) has been awarded the construction contract for the *Ridgewood Water Cedar Hill PFAS Treatment Facility* project and will be performing work throughout your neighborhood. Preparations are currently underway to locate and mark existing underground utilities before full construction begins.

Construction is expected to start on or about **Monday, March 16, 2026**, weather permitting, along **Glendale Rd. between Manchester Way and Caldwell Dr**. The work in these areas is anticipated to take approximately **6–8 weeks (about 2 months)** to complete. During this time, **street parking will be restricted** in active work zones.

PACT’s normal work hours will be **Monday through Friday, 7:00 AM to 5:00 PM**, with possible extended hours as needed depending on weather conditions. Every effort will be made to maintain vehicle access and minimize disruptions; however, occasional delays and temporary access limitations should be expected. For safety reasons, residents are encouraged to minimize travel through the construction zone whenever possible.

Essential services, including emergency response, mail delivery, trash collection, buses, and package deliveries will continue with minimal interruption.

We appreciate your patience, cooperation, and understanding as these essential improvements are completed to benefit your community.

Sincerely,

PACT TWO, LLC
