

NOTICE OF CONSTRUCTION ACTIVITIES

Glen Avenue Water Main Improvements

September 14, 2026

Dear Resident and Ridgewood Water Customer:

As part of an ongoing commitment to providing high-quality drinking water, Ridgewood Water has contracted with Montana Construction, Inc. (Montana) to complete significant water main improvements along Glen Avenue, from Highwood Avenue in Midland Park to Oak Street in Ridgewood. The project will include the replacement and upsizing of aging water mains, as well as the replacement of water service connections, all located within the public right-of-way. Approximate work limits are shown on the attached map. Homes within the work limits will be connected to a temporary above-ground water system while work is underway. Montana will notify affected homeowners in advance when the water service line supplying their home will be transferred to the temporary system.

Construction is scheduled to begin on or about **Monday, September 21, 2026** in Midland Park and is expected to be complete in **4 to 6 months**. Work will take place on weekdays between 7:00 am and 6:00 pm. During this timeframe traffic flow is anticipated to be impacted, with detour routes planned to direct traffic around the construction area. **Residents are strongly encouraged to plan ahead:** allow additional travel time and use alternate routes. Road closures will be necessary, but access will be maintained for residents living within the active construction area. Streets will be reopened at the end of each workday.

After the new water mains are installed, Montana will notify individual homeowners before replacing the Ridgewood Water-owned portion of the water service line supplying their property. Montana will also be responsible for restoring driveways, sidewalks, lawn areas and other features disturbed by the construction. Final roadway paving is expected to take place in spring/summer 2027.

Ridgewood Water recognizes that a project of this magnitude will create temporary inconvenience; your patience and cooperation is greatly appreciated. Please do not hesitate to contact Ridgewood Water at 201-670-5520 if you have questions or need additional information. If you have an emergency related to the project, please contact Montana at the number below.

Sincerely,

Montana Construction, Inc.
